### Please read the following instructions:

You will be given a short snippet of conversation between two persons containing two sentences. You will be asked to evaluate a third utterance (**response**) on two metrics (readability and coherence).

The response may come from different automated systems. The overall goal of this experiment is to improve chat bots in their ability to converse with humans.

ID 5

**You will be judging the responses on two metrics:**

**Metric 1:** Readability: Is the response easy to understand, fluent and grammatical and does not have any consecutive repeating words.

**Metric 2:** Coherence: Is the response relevant to the topic of conversation.

(untitled)

---

ID 6

## Instructions

You will rate the response utterance on metrics of readability and coherence.

ID 7

### **Sample conversation 1.**

Person A: Today I learned that 4 US states have completely banned billboards.

Person B: Living in Los Angeles, I would vote for this so hard. I'm so sick of billboards.

***Standard Response:* If this catches on, it would be safe to bet to say that LA would be the last place to do this if they ever even consider it.**
