ID 4

### Please read the following instructions:

You will be given a short snippet of conversation between two persons containing two sentences. You will be asked to evaluate a third utterance (**response**) on two metrics (readability and coherence).

The response may come from different automated systems. The overall goal of this experiment is to improve chat bots in their ability to converse with humans.

ID 5

**You will be judging the responses on two metrics:**

**Metric 1:** Readability: Is the response easy to understand, fluent and grammatical and does not have any consecutive repeating words.

**Metric 2:** Coherence: Is the response relevant to the topic of conversation.

(untitled)

---

ID 6

## Instructions

You will be asked to rank the responses produced from the best to worst response on the metrics of readability and coherence

ID 7

### **Sample conversation 1.**

Person A: Today I learned that 4 US states have completely banned billboards.

Person B: Living in Los Angeles, I would vote for this so hard. I'm so sick of billboards.

### Note: 1-Best, 4-Worst

Drag items from the left-hand list into the right-hand list to order them.

Rank Ordered

**Explanation for Readability:** The responses are ranked in this order as “Response 1” seems highly readable and is fluent and does not have any repeating words unlike “response 3”. “Response 2” seem readable but it ends abruptly without being completed.

## Note: 1-Best, 4-Worst

Drag items from the left-hand list into the right-hand list to order them.

Rank Ordered

## Note: 1-Best, 4-Worst

Drag items from the left-hand list into the right-hand list to order them.

**Explanation for Coherence:** The responses are ranked in this order as “Response 1” seems highly coherent with regards to the context of the conversation as they are talking about billboards. Even though response 3 has repeating words, it still makes a comment about the topic of the conversation which is “billboards” and response 2 has no relevance to the what is going in the conversation.
